

Full Height Turnstile

FHT1000 Full Height Turnstile

FHT1011 Full Height Turnstile
(RFID Access Control System)

FHT1022 Full Height Turnstile
(Fingerprint and RFID Access Control System)

The ZKAccess FHT1000 Full Height Turnstile is a rugged cost-effective entrance control system designed for high-traffic volume.

FHT1000 is a full height turnstile series designed to provide the utmost perimeter security. The possibility of tailgating and "hop-overs" is completely eliminated.

Besides securing door entrances and interior lobbies, the perimeter security of a building is an important extra layer of protection from unauthorized visitors. FHT1000 is an all metal full height turnstile that is extremely durable & secure and is suitable for outside use. Its rugged construction ensures trouble free and dependable operation.

FHT1000 metal barriers are normally held in a locked position, thus denying passage to the secured side. Upon FHT1000's reader (RFID and/or fingerprint) positively recognizing a user's valid access card or fingerprint, its barriers unlock automatically, thus allowing users passage to the secured side.

During emergencies and power outages the barriers automatically unlock, thereby ensuring users FAST unencumbered exit to safety.

FHT1000 provides both **security** and **convenience**, all in a very durable yet clean design.

Built-in Reader Integration

- FHT1000 series ships already integrated with our customers' preference for either card or fingerprint access control reader. This greatly reduces installation time & expense.
- FHT1000 series and associated access control readers are all factory-tested prior to shipping.
- ZKAccess provides true plug 'n play turnstiles with the lowest possible total cost of ownership in the industry!

Specifications

	Power Supply	AC110V/220V, 50/60Hz
Power consumption	Starting	20W
	Standby	7W
	Unlock	22W
	Working temperature	-28°F to 140°F
	Working humidity	0% ~ 95%
	Working environment	Indoor/Outdoor
Speed of throughput	RFID	Maximum 30/minute
	Fingerprint	Maximum 25/minute
	Face	Maximum 15/minute
	Vein	Maximum 15/minute
	Lane width	24 inches (60 mm)
	Footprint	63 x 54 inches (1600 x 1380 mm)
	Dimension	63(l) x 54(w) x 93(h) inches (1600(l) x 1380(w) x 2350(h) mm)
	Dimension with packing	48(l) x 96(w) x 34(h) inches (1230(l) x 2450(w) x 860(h) mm)
	Net weight	606 lbs (275kg)
	Weight with packing	794 lbs (360 kg)
	LED indicator	Y
	Cabinet material	SUS304 Stainless Steel
	Barrier material	SUS304 Stainless Steel
	Barrier movement	Rotating
	Emergency mode	Y
	Security level	High
	MCBF	2 million cycles
