

VAMS: VISITOR AUTHENTICATION & MANAGEMENT SYSTEM

Closing the gap in building security

SIMPLE, EFFICIENT AUTHENTICATION SYSTEM

BUILDING MANAGERS

Easily authenticate and track visitors, keeping their property safe.

VISITORS

Wait times are reduced by separating the registration and check-in process.

HOSTS

Plan for visits in advance and approve visitors on the spot.

CUSTOMIZED TO THE NEEDS OF YOUR SPACE

- ✓ Customizable visitor entry forms
- ✓ Facial recognition technology
- ✓ Real-time analytics dashboard
- ✓ Sync with access control systems
- ✓ Multiple language options
- ✓ **Standard, Advanced, and High Secure** options

POWERED BY AN APP

Visitor receives authentication code and enters their details.
Visitor photo is captured.

Host receives text or email notification and approves visitor.

Visitor entry and exit are logged.
