## Visitor Authentication & Management System

Closing the gap where physical security left off

### SIMPLE, EFFICIENT AUTHENTICATION SYSTEM

#### FOR BUILDING MANAGERS

Easily track your visitors' location at any time from anywhere.

#### FOR HOSTS

Plan for visits in advance and approve only authorized visitors who you actually invited.

#### FOR VISITORS

Dramatically reduces wait time by automating the registration and check-in process.

### CUSTOMIZED TO THE NEEDS OF YOUR FACILITY

- ✓ Customizable visitor-entry forms
- ✓ Integrated facial recognition
- ✓ Real-time analytics dashboard
- ✓ Sync with access control systems
- ✓ Multiple language options
- ✓ **Standard**, **Advanced**, and **Hi Secure** options

### POWERED BY THE CLOUD AND SIMPLE APP

Host sends meeting invitation/QR code to Visitor via text or e-mail.

Visitor displays their phone containing invitation/QR code to Host's security desk. Admission is fast & secure.

Visitor entry and exit are logged by displaying QR code or using face recognition.

### PROVEN SUCCESS ACROSS GLOBAL MARKETS

**150,000+**  
visitors registered daily
