

## Atlas-Hanwha Integration Setup

The following steps are applicable after you have already set up your existing Hanwha Wave system.

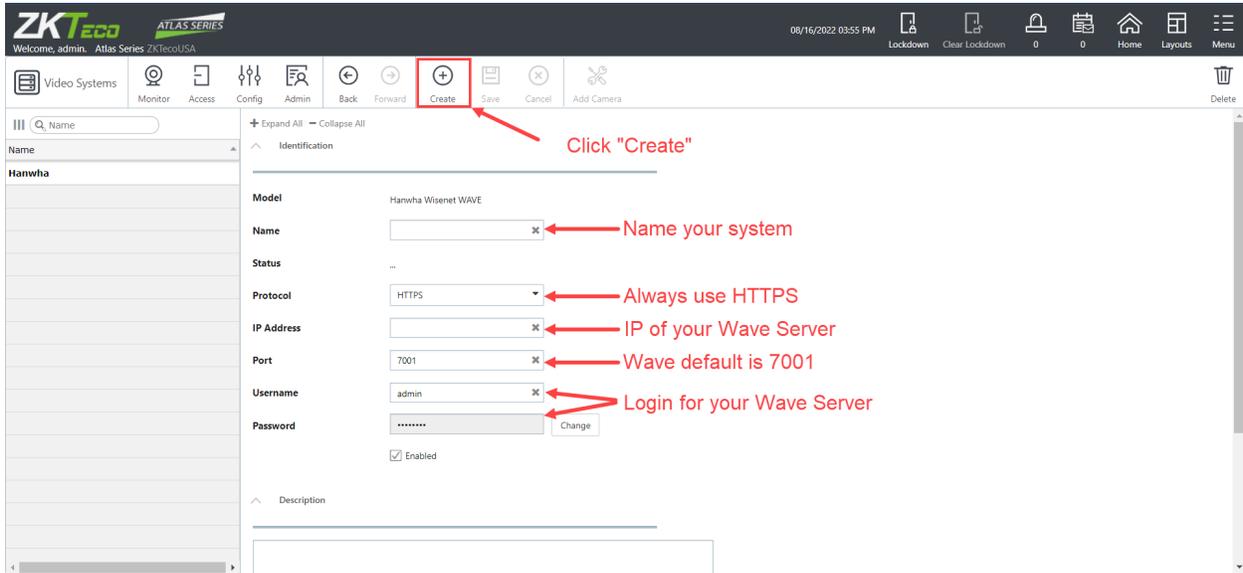

### Step 1

Login to your Atlas system, click “Configuration” and select “Video Systems”

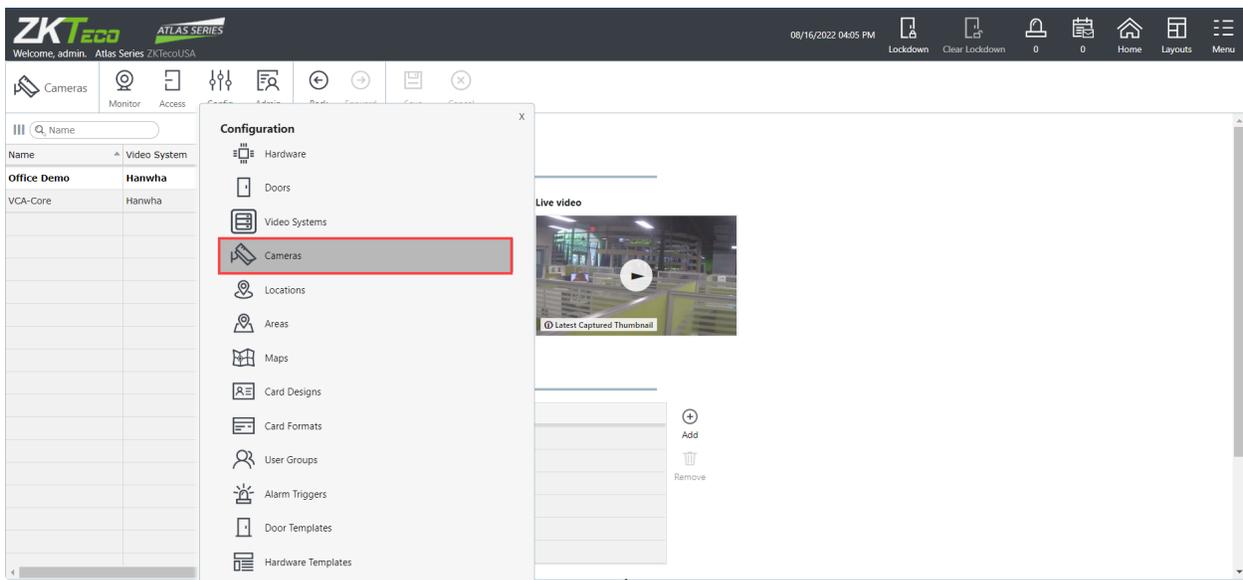

### Step 2

Click “Create” to input your Wave configuration.

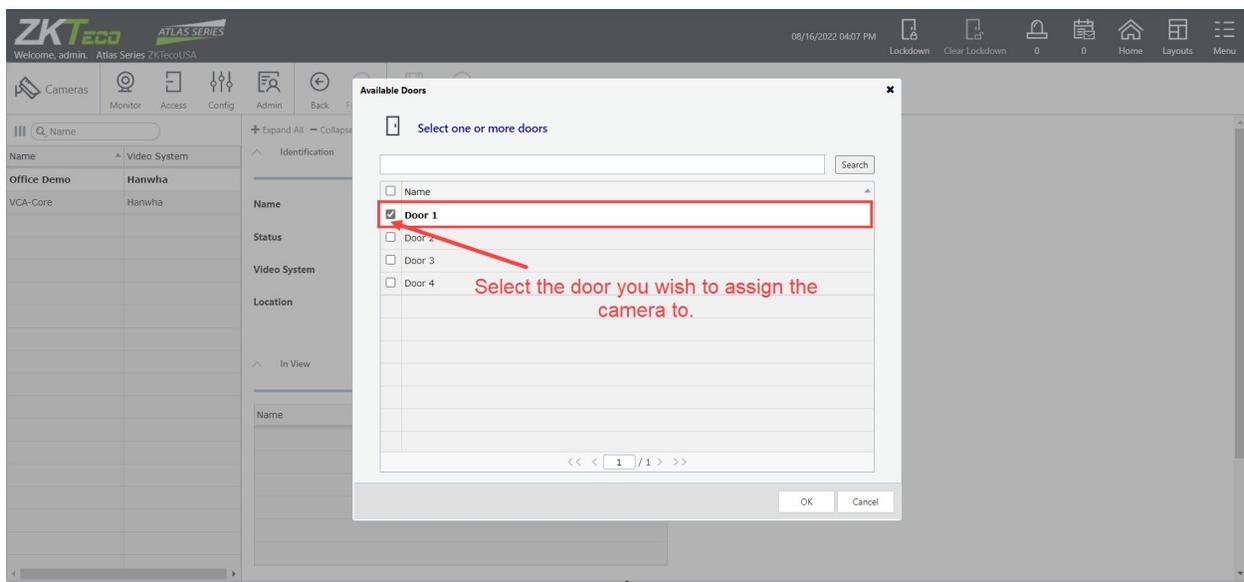

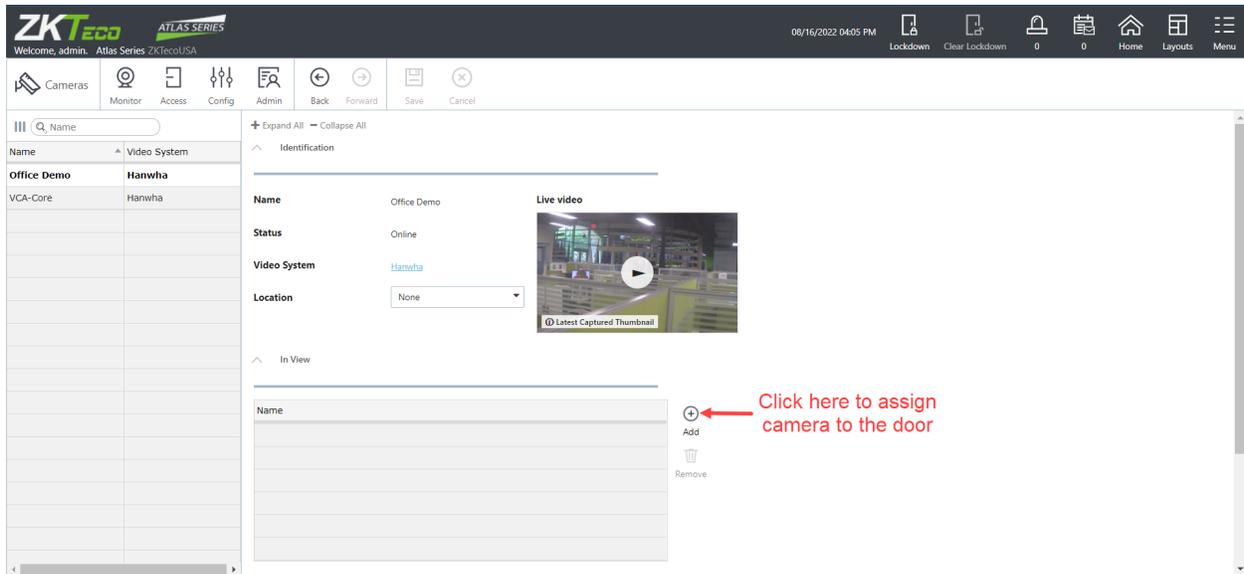

### Step 3

After you have connected to the Wave system, you can click on “Configure” and select “Cameras”

## Step 4

Click "Add" to select the door to assign the camera to.

## Step 5

Now that you have configured your Wave connection and assigned that camera that is recording to a door, you can then click the camera icon on any new events to pull up the video.

The screenshot shows the ZKTeco Atlas Series VMS interface. The top navigation bar includes 'Welcome, admin. Atlas Series ZKTecoUSA' and the date '08/16/2022 04:10 PM'. Below the navigation bar are icons for 'Events', 'Monitor', 'Access', 'Config', and 'Admin'. A search bar is present with the text 'Occurred'. A table of events is displayed with columns: Icon, Occurred, Cameras, Description, User, Source, and Location. A red arrow points to the camera icon in the 'Cameras' column of the first row.
