Doc vAura030723

Aura12 is a stylish yet rugged weatherproof intercom system. It allows tenants to remotely control access to their building from the convenience of their phone. Installation is fast & simple. The two-way audio allows tenants to speak with visitors, while its one-way video protects the tenant's privacy. Aura12 delivers on both security & convenience.

FEATURES

Builders and Installers:

- Easy installation and minimal maintenance cost
- Revenue sharing opportunities
- Management Console for easy account set up

Property Managers:

- Management Console for setting up building tenants
- Cloud base Console for tenant management
- Door camera access at all times
- Facilitate package delivery process

Tenants:

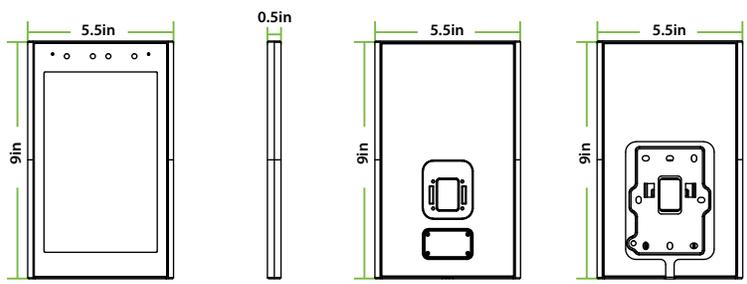

- Phone App to view & grant access remotely
- Convenient Keyless entry
- Create visitors QR codes
- Receive calls from intercom on device of your choice

Why Choose Aura12 ?

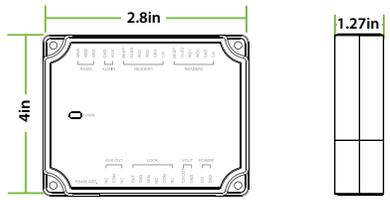

For Installers: Installation normally requires no more than a couple hours because Aura12 is completely wireless. ZKTeco takes care of all the billing. Installers simply program Aura12 how much property owners will pay the installer each month for intercom service.

For Property Managers: Aura12 increases property value by providing residents secure yet convenient access to their apartment. Property managers can also charge residents monthly for the intercom service.
